Sri Sathya Sai Institute of Higher Learning - SSSIHL

- Coursework included:
 - Multivariate Calculus, Linear Algebra, Probability, Data Structures and Algorithms in C, Linear Programming.
 - R Programming, Linux Bash, Python, C Programming, MySQL
 - Statistics

TECHNICAL PROFICIENCY

MS Excel Basics

Python

MySQL

C Programming

R Programming

Hands-on Predictive Analytics with Python - Dec 2023

Sri Sathya Sai Institute of Higher Learning - SSSIHL

Data and Visualization –

Introduced to Python - NumPy, Pandas, Data Visualization with seaborn and matplotlib, Types of data, Handling missing data, Data Encoding and Feature Scaling, Handling data imbalance.

Regression Models –

Simple LR, Multiple LR, Polynomial LR, Decision Tree, Random Forest Regression, and projects on *Restaurant revenue and Housing prices prediction*.

Classification Models –

K – Nearest Neighbours, Decision Tree Classification, Random Forest Classification, Gradient Boosting Classification, and a project on Implementing these methods.

Unsupervised learning –

Clustering, K-means Clustering, Hierarchical Clustering, DBSCAN Clustering and Principal Component Analysis.

LEADERSHIP AND ACTIVITIES

Brass Band, SSSIHL – Prashanthi Nilayam, AP

(Sep 2022 – Jul 2023)

Member of the Percussion section

- Played xylophone, cymbals, drum kit and snare drum
